

For 93 years, Blatt Billiards is considered by many to be the finest table maker in the world. We have earned this reputation because we never compromise on our materials and workmanship.

Following this tradition, we have joined together with Advent Design to bring our clients an opportunity to own a commissioned, custom, hand-made stone billiards table; a table of supreme precision and quality.

Built to tournament specifications, owning a table of this magnificence is for those who respect the artistry and craftsmanship of the Italian Stone Masters capable of creating these beautiful tables - each one, a unique piece of art.

We have a team of billiards table design experts on hand to work with you. A wide selection of fine stone choices including marble and onyx are available. These tables are for those who have the desire to own and enjoy pieces that are unique and made just for them.

We created this custom billiards table for The Edition Hotel in Miami Beach. The piece turned out beautifully.

This photograph and the next few pages show the same table in Italy before crating and shipping, and-
the last photograph shows the table delivered and set up at the hotel lobby in Miami Beach.

This photograph shows the table on the day of the delivery to the hotel lobby. The hotel was still under construction.

This illustration shows a hand-made marble billiards table and ceiling lamp made from onyx in a contemporary room setting. An identical table has been completed and will arrive to New York City next week.

These two scenes show a billiards table in a design we describe as Diamond. The exterior face of all 4 sides are carved-inward, with the legs appropriately designed along with the design-coordinated ceiling lamp, created in the identical cut diamond design.

This scene shows a billiards table in a penthouse-type setting. Notice the illuminated onyx ceiling lamp and the wall-mounted marble pool cue rack.

This scene shows the same table design with the ceiling light fixture, made with a beautiful marble known as Premium Bardiglio Grey.

This and the next photograph show the stone table in our showroom in New York City.

This rendering shows the same billiards table design as the Miami Beach table described on page one, but created with a nearly pure white marble combined with red felt. Please notice the high-style marble ceiling fixture that we can create as a compliment to the table.

Selection of marble choices

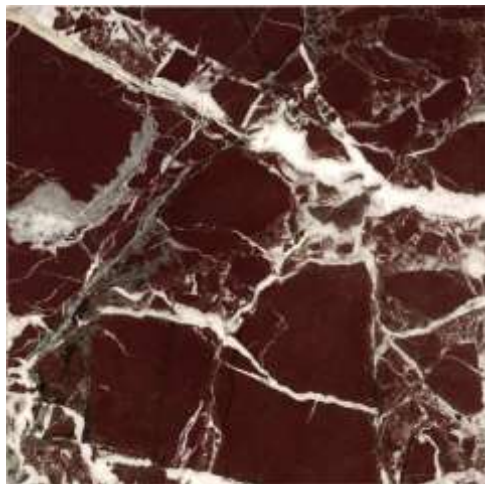

Bardiglio Grey Marble

Premium Carrara Marble

Black Moon Marble

Rosso Levanto Marble

Italian Beige Travertine

Green Forest Marble

Examples of more exotic marble stone choices
